Mail server settings for JCWIFI.com email. – Outlook 2010

Inside of Microsoft Outlook, click on the File tab at the top of the screen, then click on Account Settings drop down and choose change existing connection settings.

In the Account Setting window click on your email account to highlight it and then click on "Change".
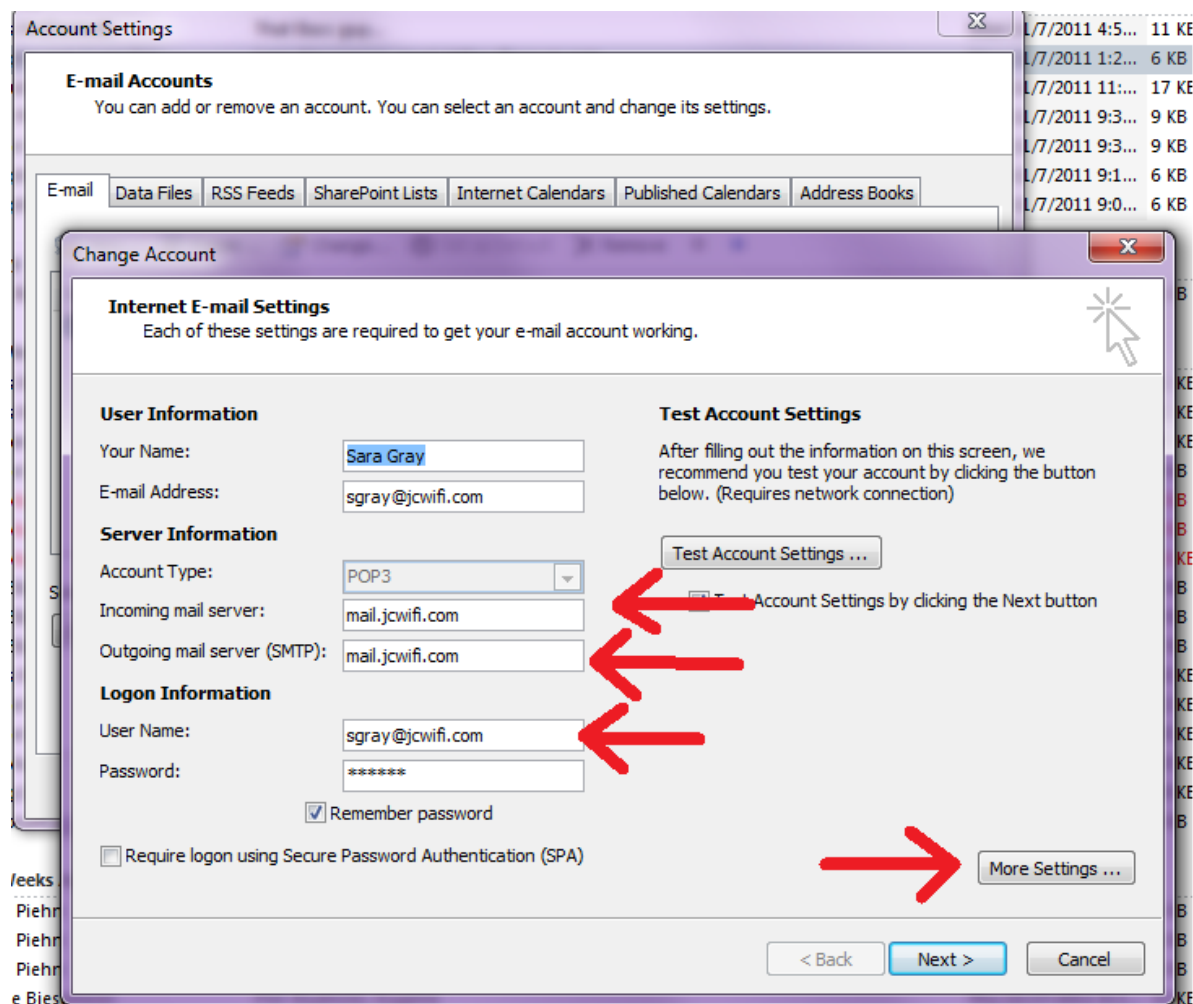

On the Change Account window you will need to change the following settings.

Incoming mail server = mail.jcwifi.com

Outgoing mail server = mail.jcwifi.com

User Name = your complete email address

Then click on "More Settings"

Click on the Outgoing Server tab at the top of the window. Click the box that says "My outgoing server requires authentication", and make sure that "Use the same settings as my incoming mail server" has the dot filled in. and click OK.

Click Next to save changes and close out of the remaining windows. If your mail does not work, please call JCWIFI support at 815-233-2641.
