

Mac Mail Email Setup

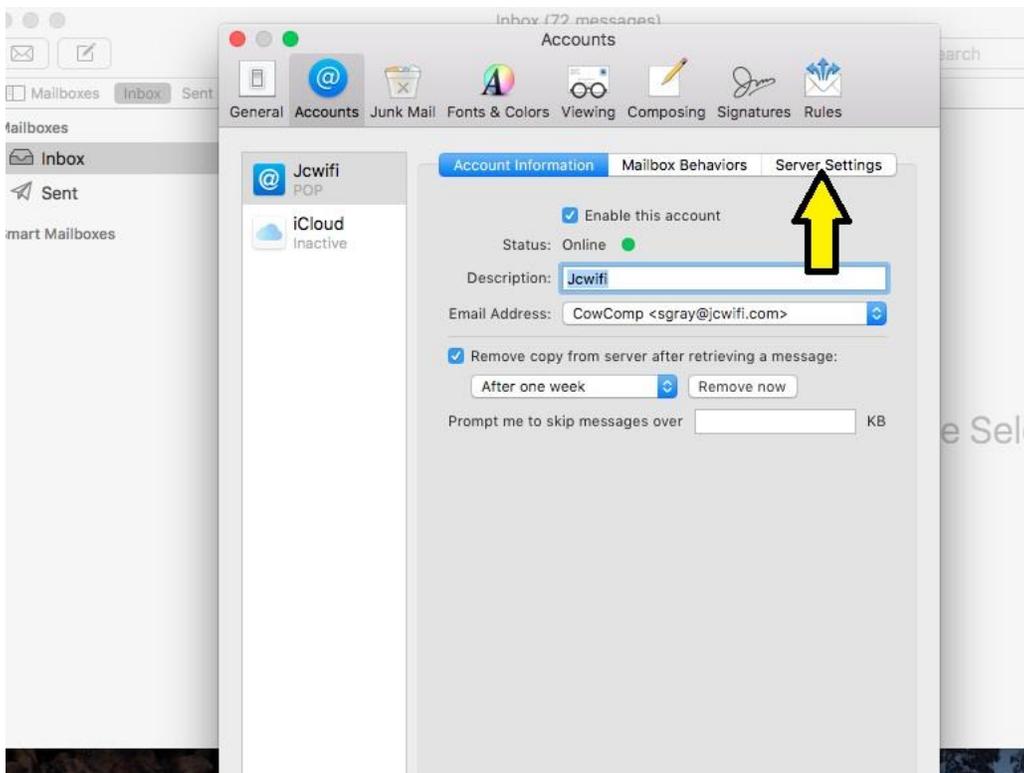

Click on **Mail**.

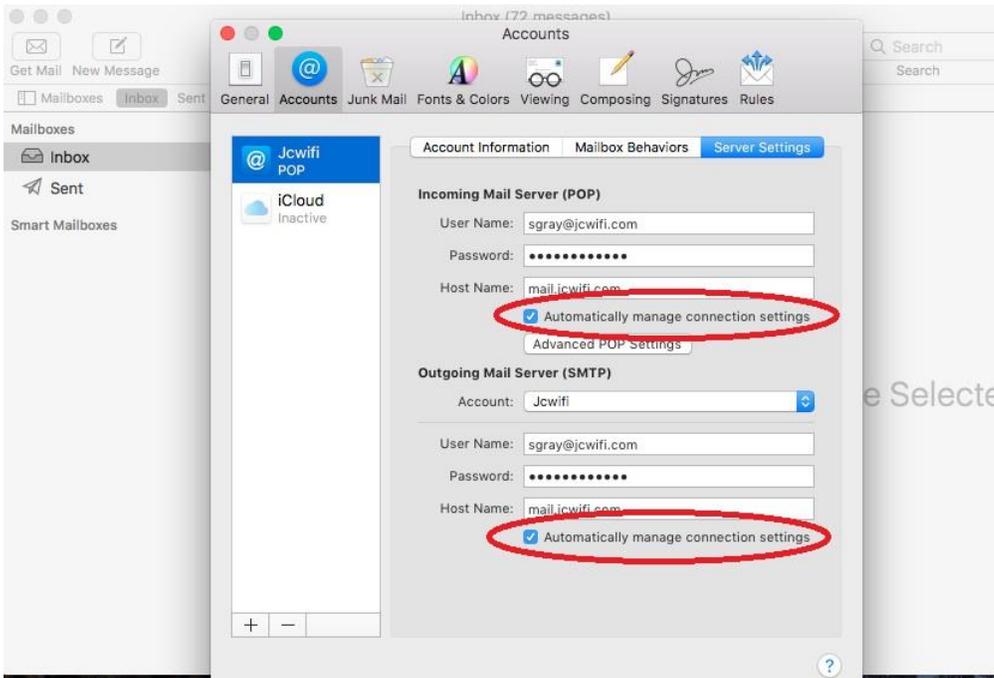

Click on **Preferences**.

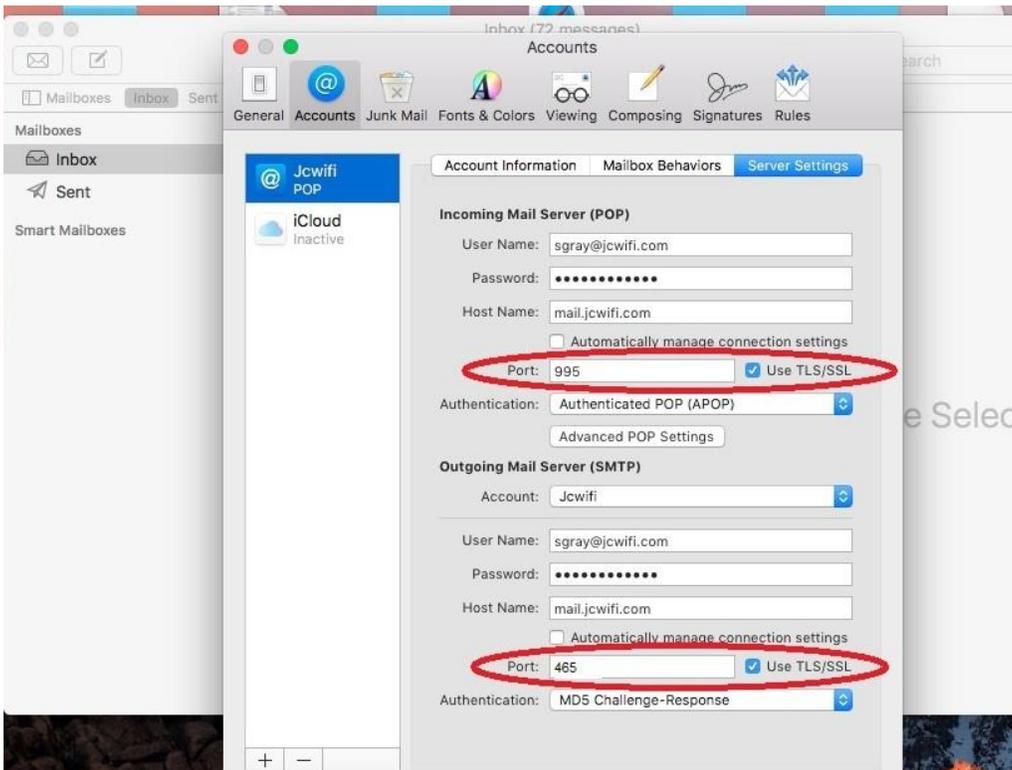

Choose your account.

Click on **Server Settings**.

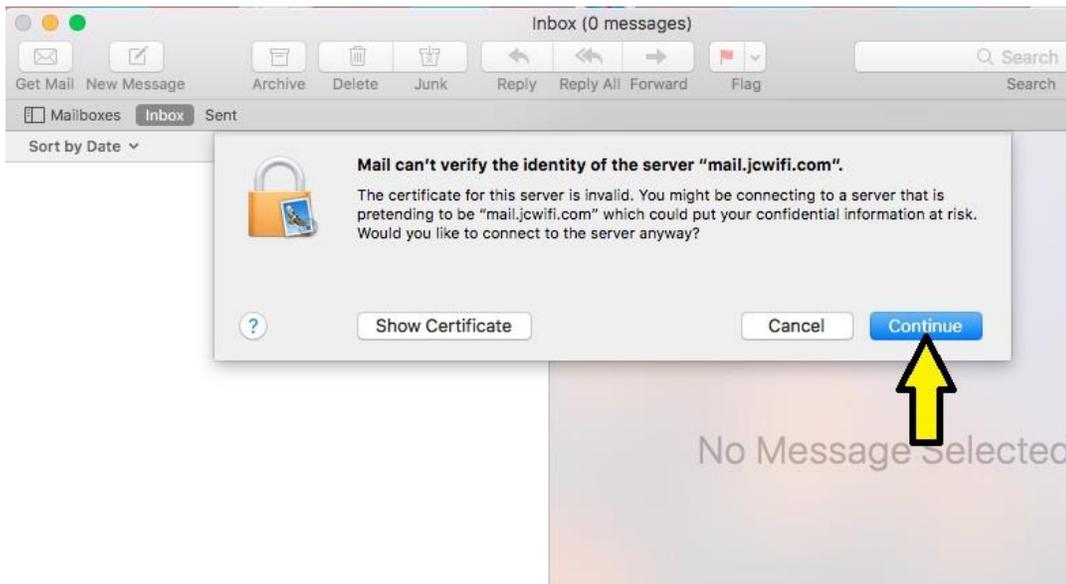

Uncheck the boxes next to “Automatically manage connection settings”

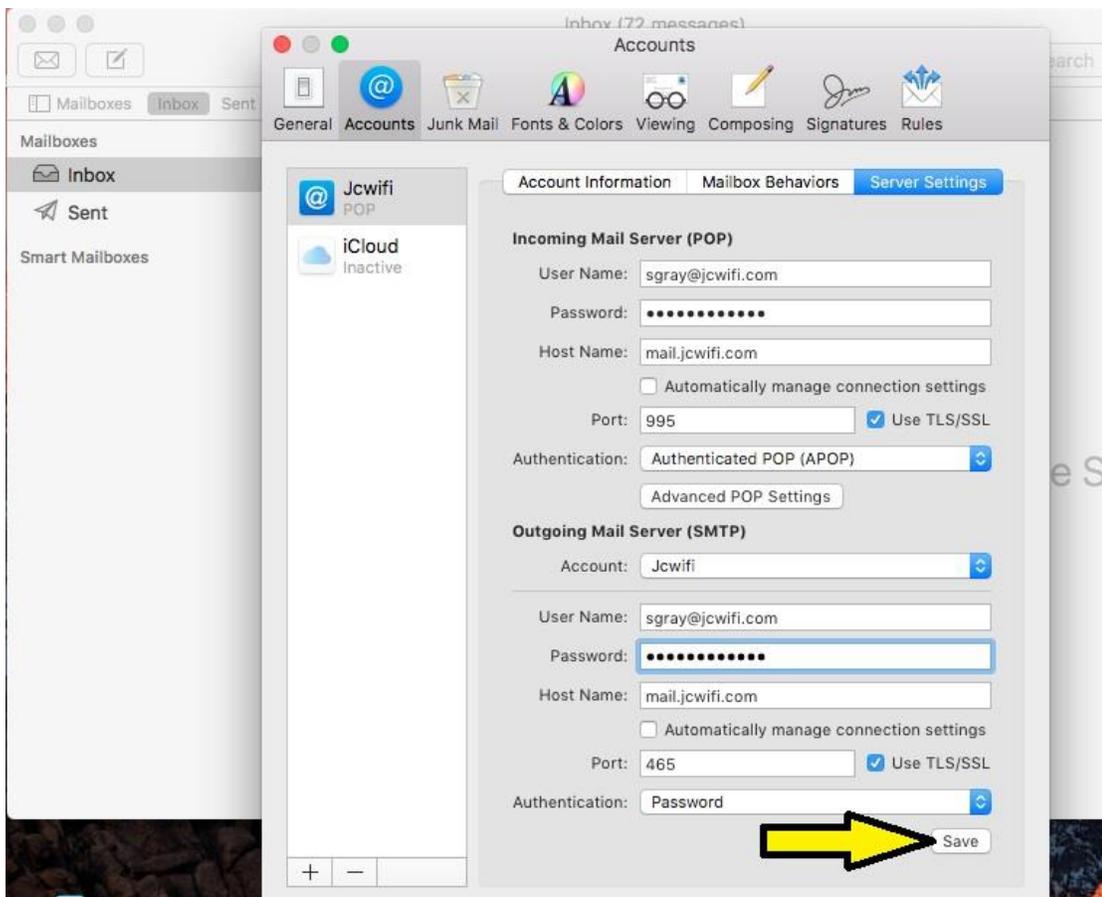

Make the following changes:

1. Incoming mail server Port: **995**
2. Check “Use TLS/SSL”
3. Outgoing Mail Server Port: **465**. If 465 doesn't work, try **587**.
4. Check “Use TLS/SSL”

Click **Continue** to accept the certificate.

Click **Save** at the bottom.
