Mail server setting for JCWIFI.com email. – OUTLOOK 2003

Inside of Microsoft Outlook, click on the tools drop down menu and then on e-mail accounts
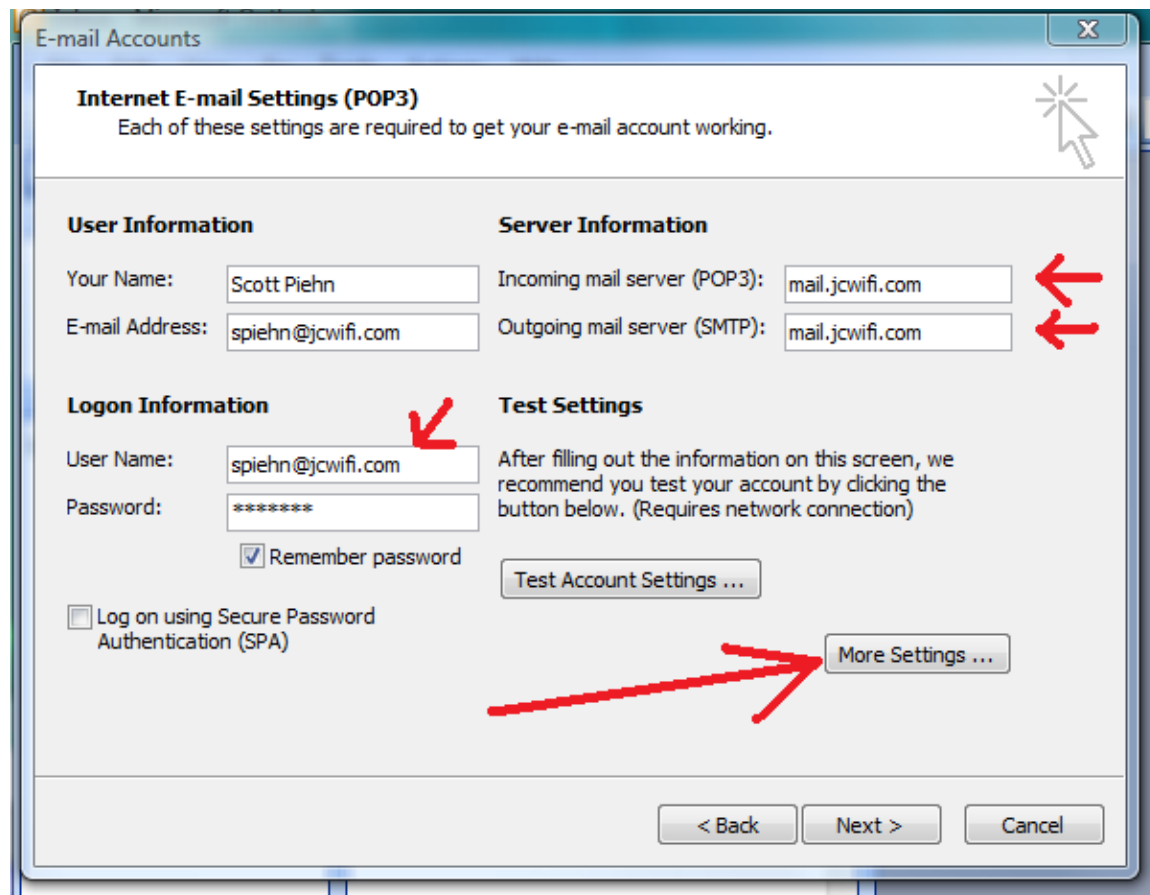

Make sure "View or change existing e-mail account is selected, then click on the Next button

On the E-Mail Accounts windows, select your jcwifi.com mail account (if you have more than one, you will need to repeat this and all following steps for each account). Next click on the Change button
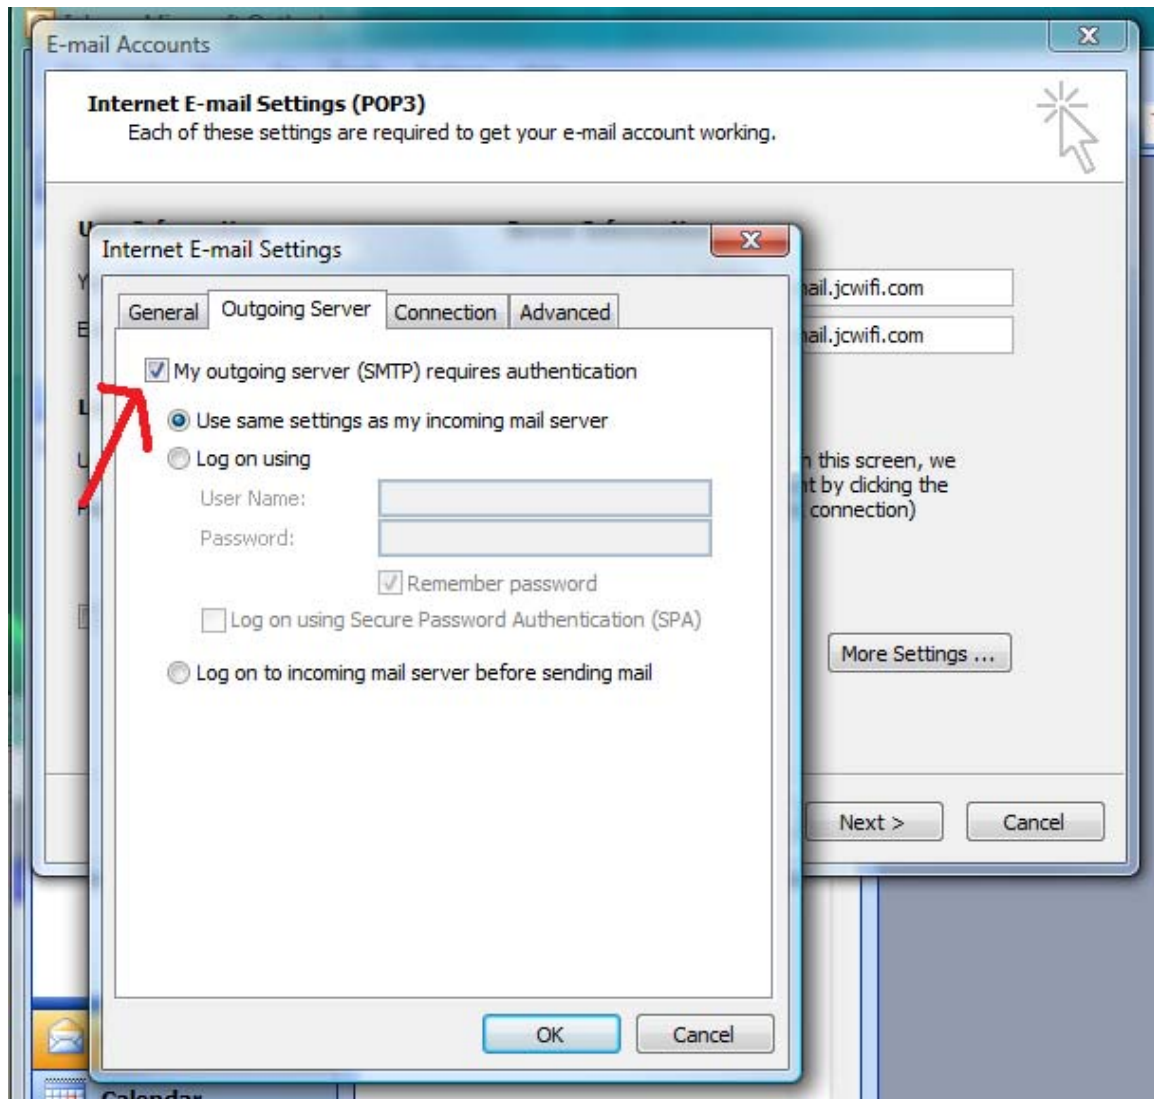

On the E-Mail Accounts window the important setting are

Incoming mail server = mail.jcwifi.com
Outgoing mail server = mail.jcwifi.com
User Name = your complete email address

Then click on the More Settings button

Click on the outgoing server TAB and click on the box for "My outgoing server (SMTP) requires authentication" to put a check in it

Click ok and next to save changes. If your mail does not work, please call JCWIFI support at 815-233-2641
